

**Young
BPW Europe**

**Results of Young BPW Workshop
During the BPW Europe Congress in Stockholm 2006**

The Workshop was held as a moderated discussion-session, where the attendances could describe their attitudes, questions and points where they require help. At the start of each session we agreed on the points and questions the participants need answers to.

BPW and Young BPW members from other countries used this intensively to question and answer each other round about starting and running Young BPW in their Clubs and Federations. The questions covered topics like:

- How to start Young BPW, where to find young member
- How to integrate Young BPW into the Federation
- What about the attitude from elder BPW
- Which topics are of interest for Young BPW, what could be good ideas for a program?
- What is the perfect Meeting place for Young BPW?
- The Membership-Fee-discussion

One-to-one discussions, exchange of experience and agreement on direct support were the immediate results. The members started to help each other.

At the end of each session every participant not only took advantage from others experience but on the other side could contribute with her remarks and experience to make other BPW members profit from it. So, it was a kind of "helping them help themselves-session".

Additionally the Guideline "Integration and Communication with new (young) Members" was launched. As Young BPW Representative for Europe, I offered again my personal involvement and action, if there should be any question, idea or help required for Young BPW.

Bonn, June 26th 2006

Viktoria Balensiefen
Young BPW Representative for Europe
2005 - 2008
